Forming a New Faith Community (Church Planting)

Two Primary Ways to End Up in a Plant

Person Looking to Plant or a	God has laid it on your heart to be a church planter or
Church (Multi-site, Satellite,	Pioneer. You are looking for the place He leads you to, to
etc.)	make that happen. If you are or think you may be a Planter,
	have a conversation with your Chief Missional Strategist (DS)!
Plant Looking for a Place and	God leads you to look at a particular place or space to begin a
Person	new faith community.

Either way, the question comes down to: Location, Location, Location!

Step	Explanation
This looks like a good spot for a	You find a space that looks like it might be a good spot to start
Church!	a new faith community. God may lead you to a building,
	vacant lot, new community, old community that needs some
	Jesus or someplace totally unexpected
MissionInsite	Use MissionInsite to see what types of people may be around.
	What their preferences in programs, styles and leadership
	might be.
Community Assessment	Drive around. Talk to people. Get to know the people and
	their needs. Remember that MissionInsite data is a good
	starting point but there is a person behind every data point.
	Use the information gathered to look at growth, potential and
	current and future needs. Write it down. It will help you to
	focus your thoughts.
Form a Team	Don't do this by yourself. Bring together people who have
	experience, insight and vision. Build your "First 12" – a team
	of 12 leaders to walk this path with you.
Pick a Plant	As you and the team walk through the data and assessments,
	review the types and kinds of new church plant models and
	new faith community models. Which works best for your
	situation and context? Don't try to force a round peg into a
	square hole. Let God lead the process. There are many models
	and types from which to choose: Traditional Plant Models,
	Fresh Expressions, Community Outreach or whatever works
	for your context.
Make a Plan	Count the Cost! Set goals and come up with concrete action
	steps and timelines. Know the challenges as best you can
	before you start the project. Don't be afraid to reevaluate
	things as you go and make adjustments.
Execute	Go plant!
Repeat	From Little Acorns mighty oaks grow. Then the mighty oak
	spreads more acorns around! Go make other new faith
	communities. Usually within 3-5 years, you should be looking
	to plant a new faith community of your own.
